**Work Activity Description:** DOI Work Activity 9X – Accounting for Non-Specific Hydropower Activities Costs is to be used for all hydropower-related activity **not directly allocated to a specific project**.

Use **DOI Work Activity 9X – Accounting for Non-Specific Hydropower Activities Costs** for all hydropower-related activity including (not directly allocated to a specific project):

- Non-project specific training (not related to Hearings and Alternatives training);
- Administrative chores specific to program operations;
- Supervision;
- Contract development;
- Conferences/workshops
- Responses to general inquiries on the program
- Administrative chores supporting bureau or parent organization;
- National program support (e.g. policy-related tasks, Congressional hearings)

**Note:** *Supervision, contract development, administrative chores should not be included if the bureau applies an indirect cost rate for cost recovery purposes and these costs are in the bureau's indirect cost pool. Otherwise, there may be a problem with double counting.*
